

Consent for Dental Hygiene Services

Community Location: _____

Grade: _____

Advantage Dental wants to help keep your community cavity-free and healthy. Dental hygienists from Advantage Dental will be available on site during the year to provide free dental services. These services do not replace regular dental care from a dentist.

YOU MUST FILL OUT AND SIGN THIS FORM TO GIVE PERMISSION FOR YOU/YOUR CHILD TO RECEIVE ANY OF THESE SERVICES.

PATIENT INFORMATION

Parent/Legal Guardian Information if Applicable	
Parent/Legal Guardian Name: _____	
Best phone number to reach you during the day: (_____) _____	
Friend or family member's phone number to reach you in case you change your phone number: (_____) _____	

Your signature indicates that you have been informed of the risks and benefits of treatment, your questions have been answered, and that you consent to the treatment indicated above.

As the parent/legal guardian, I agree to all of these statements:

- I give consent for dental services initialed/indicated above from Advantage Dental Clinics and Advantage Dental Group, PC (jointly "Advantage Dental"), and/or one of its representatives.
- The results of the oral hygiene services, including personal health information and scheduling information, may be shared between Advantage Dental, the dental provider (hygienist or patient's dentist), the community site, any listed insurance carriers, the dentist of record, any applicable Coordinated Care Organization, and/or the Dental Care Organization of record for purpose of treatment, payment or healthcare operations.
- I have been given a copy of the "Notice of Privacy Practices" and HIE (Health Information Exchange) Notification.
- This consent will remain active for 24 months unless revoked in writing or by calling an Advantage Dental representative.

If you have dental insurance through Medicaid, the Oregon Health Plan or Healthy Kids, the hygienist will notify the plan of the services received.

Screening (Teeth Checkup): A specially trained hygienist will look in the mouth to check for changes in teeth that may indicate cavities or other oral health problems.

- **Risk(s):** Decay or other problems could exist and get worse if not discovered in an oral health screening.
- **Alternative(s):** Choose to not have a checkup.

Fluoride Coating: A temporary thin coating is (called varnish by dentists, but is not paint!) put on the teeth to make them resistant to cavities. The coating is safe even if it is swallowed. It does not sting, taste bad or stain the teeth.

- **Risk(s):** Allergy is rare.
- **Alternative(s):** Daily or weekly fluoride rinses, fluoride foam, or fluoride gels applied at your dentist's office.

Sealant: A dental sealant is a white coating put on the chewing surfaces of the back teeth where cavities occur most often. Sealants make barriers on the teeth that keep bacteria out and prevent cavities. They don't interfere with biting or chewing.

- **Risk(s):** Sealants only protect the chewing surfaces and can last for several years, but sometimes they need to be replaced. Brushing is still needed to protect the whole mouth from tooth decay.
- **Alternative(s):** Silver fluoride, or choose to not have dental sealants. Choosing not to use sealants could increase the chances you will develop decay in the chewing surfaces of the teeth.

Before Sealants After Sealants

Silver Fluoride: Fluoride with silver looks like water but is very powerful and stops cavities that are hard to see. It is painted on the teeth with a tiny brush and can heal early tooth decay. It goes on quickly, and doesn't hurt or smell. Cavities that are stopped or healed with silver fluoride will turn dark brown or black. Teeth without cavities will not change color. If the color shows a lot, a dental provider can cover it with white filling material. Fillings may not be needed for cavities that are healed with silver fluoride.

- **Risk(s):** If silver fluoride comes in contact with skin it will cause a small dark spot that will go away on its own in 1-2 weeks. If it comes into contact with existing white fillings it might stain.
- **Alternative(s):** Choose not to have the silver fluoride applied. This could leave harmful bacteria on your teeth and increase the chance of tooth decay. Another alternative would be to use fluoride toothpaste regularly and have fluoride varnish and sealants applied at your dental office.

How Silver Fluoride looks on a tooth with a cavity

How Silver Fluoride looks on a tooth with no cavity

Before

After

Antiseptic for the Teeth (Iodine): The antiseptic kills bacteria that cause cavities. When applied before the fluoride coating, it prevents many more cavities than just the fluoride coating alone. The amount of iodine used is less than the amount of iodine in a small serving of shrimp or fish. Iodine is a normal part of our diet from food and is safe. It does not sting, taste bad, or stain the teeth.

- **Risk(s):** Allergic reactions are rare, but you should not have this treatment if you are allergic to shellfish.
- **Alternative(s):** Choose to not have the iodine applied. This could leave harmful bacteria on your teeth and increase the chance of tooth decay.

Protective Restoration: This is a simple tooth colored filling placed in a cavity to protect the tooth until a permanent filling can be done. It relieves pain and promotes healing inside of the tooth. No shots are needed. It does not sting or taste bad.

- **Risk(s):** Protective fillings may partially fall out, but what is left still protects the tooth.
- **Alternative(s):** A regular filling or cap. Without care, the cavity may get bigger or become painful.

SUMMARY OF NOTICE OF PRIVACY PRACTICES

Our Responsibilities: We are required by law to protect the privacy of your health information, provide this notice about our privacy practices, follow the privacy practices that are described in this notice, and ensure your acknowledgment of receipt of this notice. We may change our privacy policies any time and notify you of significant changes. You can also request copy of our complete notice at any time. For more information about our privacy policies, contact us at 1-866-268-9631.

How we may use and disclose your health information: We use health information about you for treatment, to get paid for treatment, for administrative purposes, and to evaluate the quality of care that you receive. For example, your health information may be shared with other providers to whom you are referred. Information may be shared by paper, mail, electronic mail, fax, or other methods allowed by law. We may use or disclose your health information without your authorization for several reasons including legally required disclosures and notices to Public Health agencies. If we disclose your information for any other reason, we will ask for your written authorization before using or disclosing your health information. If you sign an authorization to disclose information, you can later revoke it to stop any future uses and disclosures.

Your Rights: In most cases, you have the right to look at or get a copy of your health information that we use to make decisions about you. You also have the right to request a list of certain types of disclosures of your information that we have made. If you believe your health information is incorrect or information is missing, you have the right to request that we correct the existing information or add the missing information. You also have the right to request restrictions or limitations on how we use or disclose your medical information and the right to request confidential or alternative communications.

Privacy Complaints: If you are concerned that we have violated your privacy rights, our privacy policies, or if you disagree with a decision we made about access to your health information, you may contact us at 1-866-268-9631.

You also may send a written complaint to the US Department of Health and Human Services. We can provide you with the appropriate address upon request.

Summary of Privacy Practices: This document represents a summary of Privacy Practices. The complete Notice of Privacy Practices will be provided upon request.
